Based on LWG and our team's input, here are the final changes to the FS revision process that I just sent to the LWG for the final review.

Thanks all,

Lori

Hi Margaret,

Here is the final draft of the FS process, in line with our conversations. Also is a modified diagram that shows our process.

Please let me know if this is ok, and I will remove the redline/strikeout and send out as final agreement.

Thank you

Lori

Hi Lori,

I left you a voicemail a little while ago about the LWG's response to your draft Revision Process for Feasibility Study. As I mentioned, we have two suggestions for tweaks to the draft that reflect, I think, our discussion at the last Senior Managers' meeting. In the attached document, I have accepted all of the changes that were shown in Track Changes in the document you sent, and then made the changes to the fourth paragraph shown in Track Changes here. If you have any questions or concerns, I will be in my office until 1:00 and available for a call. If our changes look good to you, we can inform the Executives this afternoon that we have agreed on a process for revision of the Feasibility Study.

I look forward to seeing you this afternoon.

Margaret
